

Adept® Oil

NFT® Double Coated Glove

Product Datasheet

OUR REF: Adept® Oil

PRODUCT DESCRIPTION

Patented **NFT®** fully coated glove with a flat nitrile undercoating to provide a flexible and **waterproof** glove with enhanced dexterity and exceptional grip in wet and oily conditions. NFT® coating provides **class leading abrasive resistance** to offer an extremely long lasting glove and, with the **Sanitized®** hygiene function, is able to stay fresh and odour free throughout usage. Specially engineered glove for use in particularly wet or oily conditions to keep hands dry and ensure maximum efficiency throughout usage.

TYPICAL APPLICATIONS

Oil and gas industry, marine, automotive, aerospace, mechanics, light metal fabrication, maintenance, general handling of wet or oily items

AVAILABLE SIZES: 7/S • 8/M • 9/L • 10/XL
• 11/2XL

PACKAGING: Per Pack: 10 pairs
Per Box: 120 pairs

Technical Details

Tested in accordance with EN 388, EC type examination carried out by:

SATRA Quality Assurance Ltd, SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom (Notified Body No. 0321)

The results are taken from the palm area of the gloves and the uncoated surface may have reduced performance levels.

Cut
Puncture
Tear

► **NFT®** is a unique, proprietary technology which provides unrivalled grip with micro capillaries drawing oil and water away from the surface of the glove. Rigorously engineered to give outstanding dexterity for precision handling applications.

► **The Sanitized® hygiene function** brings increased freshness, comfort and protection.

- **Sanitized®:** These gloves incorporate a Biocidal product. The Biocidal treatment protects against a broad spectrum of Bacteria and Fungi. The active Biocidal substance - Zinc Pyrithione - promotes freshness and inhibits odours.
- **Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.
- **Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
