X indicates Not applicable

All testing carried out in the palm area unless specified. Results are only applicable to the glove as a whole including all layers, not the constituent parts.
 These gloves are designed to be tight fitting to the hand and wrist and therefore do not meet the minimum length requirements of EN420:2003 +A1 2009

GB These products are classed as Cat II Personal Protective Equipment (PPE) by the European PPE Regulation (EU) 2016/425 and have been shown to comply with this Regulation through the Harmonised European Standard(s) EN388:2016, EN420:2003 +A1 2009.

Glove Care: To get the best service from your gloves ensure that after use all contaminant is removed using a damp cloth. **Storage and Transport:** Store in dry conditions away from direct sunlight and extreme heat. You are advised to retain this packaging for reference. Always inspect gloves prior to use and do not use if damaged or showing signs of abrasion or wear. **Caution:** These gloves have a high tear resistance they should not be worn where there is risk of catching in moving machinery. Contains latex which may cause an allergic reaction. The claimed performance is for the palm area only. EU Type Test Examination Certificate carried out by SATRA Technology Europe, Bracetown Business Park, Clonee, D15 YN2P, Ireland. Notified body number 2777
