

R430

Red double dipped thermal PVC gauntlet with Boa lining.

A tough, chemical resistant glove with soft and flexible cuff. Made from specially formulated PVC which remains flexible at low temperatures. Triple dipped glove area with non-slip coating and knitted Acrylic/Wool lining which gives extra insulation. The Sanitized® hygiene function brings increased freshness, comfort and protection over prolonged periods of use. Fully REACH compliant.

* Testing carried out on the palm material. Except in cases where the glove is equal to or over 400mm - where the cuff is tested also tested. * X denotes Not Tested. * Where applicable, EN388:2016 scores take precedent and are ongoing. There is no correlation between couple test levels and ISO 15997 / TDM cut test levels. Where both EN388:2016 and EN388:2003 scores are shown, the latter is shown for informational purposes only.

* For details regarding maximum permissible user exposure, see separate sheet.

FURTHER INFORMATION

STORAGE / TRANSPORT: Keep away from direct sunlight; store in a cool dry place. Keep away from ozone sources or naked flame. Store the gloves in their original packaging. During transportation, ensure the product is well packaged and protected in order to prevent any damage.

PRECAUTIONS BEFORE USE: 1. Gloves should not be used when there is a risk of entanglement with moving machine parts. 2. Before usage and periodically during usage, inspect the gloves for any defects or imperfections. Avoid wearing damaged, dirty or worn out gloves. 3. The gloves should not come in contact with a naked flame or fire. 4. Do not subject to high speed or serrated blades. 5. Always read enclosed user instructions before using these gloves. 6. When used, protective gloves may provide less resistance to the dangerous chemicals due to changes in physical properties. 7. Movements, snagging, rubbing, de-gradation caused by the chemical contact etc. may reduce the actual use time significantly. For corrosive chemicals, degradation can be the most important factor to consider in selection of chemical resistant gloves. 9. This product has not been tested against viruses.

CONSTITUENTS / ALLERGIES: Some gloves may contain ingredients which are known to be a possible cause of allergies in sensitive persons who may develop irritant and/or allergic contact reactions. If an allergic reaction should occur seek medical advice immediately. This model does not contain any substances at levels that are known to, or suspected to, adversely affect user hygiene or health.

*SANITIZED® TREATMENT

Sanitized®: These gloves incorporate a Biocidal product. The Biocidal treatment protects against a broad spectrum of Bacteria and Fungi. The active Biocidal substance - Zinc Pyrithione - promotes freshness and inhibits odours.
