TECHNOLOGY

Technical Details

Tested in accordance with EN 388, EC type examination carried out by:

SATRA Quality Assurance Ltd, SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom (Notified Body No. 0321)

The results are taken from the palm area of the gloves and the uncoated surface may have reduced performance levels.

EN 388

4	5	4	2
Abrasion	Cut	Puncture	Tear

► **The Sanitized® hygiene function** brings increased freshness, comfort and protection.

- **Sanitized®:** These gloves incorporate a Biocidal product. The Biocidal treatment protects against a broad spectrum of Bacteria and Fungi. The active Biocidal substance - Zinc Pyrithione - promotes freshness and inhibits odours.
- **Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.
- **Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
