Oil-Teq5	OIL5FC	7-10	4543

PROPERTIES

This is a protective glove range against mechanical hazards. The gloves comply with the general requirements for protective gloves according to the European Directive 89/686/EEC and the European Standards EN420 & EN388.

These gloves also comply to the European Union REACH regulation (1907/2006).

EN388:1994 - Mechanical Hazards

a = resistance to abrasion (Min 0: Max 4)

b = resistance to blade cut (Min 0: Max 5)

c = resistance to tear (min 0: Max 4)

d = resistance to puncture (Min 0: Max 4)

abcd

PACKAGING & STORAGE

The gloves are packed singularly for protection during transport and storage. 12 pairs are then packed in a master polybag and 120 pairs per outer carton.
