

User Information Sheet

Technical Arm Protection

Product	Code	Size Range	EN388:2016
Intrepid Elite Sleeve	INTSEL	ONE SIZE	4X4XF
Intrepid Sleeve	INTS50	ONE SIZE	343XC

Properties

These sleeves are designed to protect against mechanical risks. They are compliant with general requirements for protective sleeves in accordance with the European Regulation (EU) 2016/425 and European standards EN420 and EN388. For additional information please contact customer services: +44 115 961 9555.

Packaging & Storage

For protection during transport and storage, these sleeves are packed in individual pairs, polybagged in bundles and placed in card-board outer cartons. Store them in a cool, dry place away from direct sunlight, radiant heat and chemicals.

Disposal

Used sleeves may be contaminated with hazardous materials. Please dispose according to your local Authority Regulations, landfill or incinerate under controlled conditions.

An EU Declaration of Product Conformity is available at www.tornadogloves.com or by contacting Tornado Gloves directly.
